

Please uphold the 'Do Not Call' list in New Jersey. It is a violation of my rights to privacy in my own home to be called when I do not welcome solicitors and will anyway hang up on them, causing an awkward and avoidable situation. It is an insult to my intelligence to be constantly phoned off-hours when I am perfectly capable of browsing the Internet or making phone requests myself when I seek to depart with any of my hard-earned U.S. dollars. Thank you for your time and consideration of my humble yet perfectly reasonable request.
